

Abstract Topics

Discover the list of Abstract Topics and get inspired to contribute to the educational and scientific content of ESPNIC 2023.

Take the opportunity to present your work at ESPNIC 2023, share it with the world, contribute to our field, and leave your mark of innovation on the future of paediatric and neonatal critical care medicine.

- Cardiovascular dynamics
- Cardiac ICU and mechanical circulatory support
- Career development
- Case Reports
- Critical Care Nephrology & Hepatology
- Ethics
- Health services research, administration, education, information technology
- Infection, systemic inflammation and sepsis
- Long term outcome
- Metabolism, endocrinology and nutrition
- Neuro critical care
- Nursing science
- Paediatric and neonatal intensive care nursing
- Patient quality and safety
- Pharmacology
- Respiratory Failure
- Resuscitation & emergency medicine
- Team and personal well-being
- Transport

Submit an abstract of your latest scientific research under one of these topics and get a spotlight on your work! All submitted abstracts have the chance to compete for the [ESPNIC Young Investigator Award](#). The 2 best will be awarded with great prizes!
