

Reasons to Submit

Getting recognition for your work, constructive feedback, and new ideas are just some of the brilliant reasons to submit an abstract.

Being part of the **ESPNIC Xperience 2023** programme is a great way to push forward your career. Share your findings with the paediatric and neonatal community and make a name for yourself in the field.

Check out the video below for further inspiration!

Expand your professional network

Presenting your abstract at ESPNIC 2023 will put the spotlight on your most recent work, and will allow people to know that you are doing research in Cardiovascular dynamics, Critical Care Nephrology & Hepatology, Neuro critical care and other diverse aspects of paediatrics and neonatal intensive care. Discuss your findings with global experts, connect with future collaborators, and meet with colleagues who are interested in your topic.

Gain exposure for your work

Meet international colleagues interested in your results and get ready to answer questions! Your research will gain wide exposure, you will receive valuable feedback and ideas, and your name will be recognised in the programme.

Excell your skills

Develop your presentation and communication skills, an essential competence for advancing your career. The more you present your work, the better you become at explaining why your results are important and how they can impact science.

Contribute to the future

Sharing your research contributes to our goal of revolutionising the prevention, treatment, and control of various areas in paediatrics and neonatal intensive care. The research in these areas can impact the future of Cardiac ICU and mechanical circulatory support, Long term outcome, Nursing Science, Health services research, administration, education, information technology, and more. Make a difference!

Find your place in the programme

Submission allows you to be creative in sharing your presentation in any of the formats available for the Congress. You can also choose from various abstract topics. The floor is yours.

Advance your career

By participating in ESPNIC 2023 you will put the spotlight on your work, earn CME credits, and take part in the Young Investigator or Nurses Award. Submit an abstract to move your career forward on an international level.
