

		Hall A	Hall B	Hall C	Hall D	Hall E	Hall F
Tuesday, 20 June 2022							
 Xperience	08:30 - 16:30	Masterclass 1: ECMO for respiratory and cardiac failure in children – an interactive masterclass with inbuilt ECMO simulation sessions	Masterclass 2: Neuromonitoring with aEEG in neonatology and paediatric intensive care	Masterclass 3: Learning the nuts and bolts of ventilation in paediatric critical care	Masterclass 4: POCUS Course for neonatal and paediatric intensivist	Masterclass 5: Advanced paediatric and neonatal sepsis	Masterclass 6: Writing with confidence for a publication
	16:30 - 17:00	 Xtra Time					
 Xellence	17:00 - 19:00	Opening Ceremony & Plenary I & II Chairs: Akash Deep, UK; Daniele De Luca, France; Paulien Raymakers Janssen, Netherlands					
	17:00 - 17:15	17:00 - 17:05 Inauguration Video 17:05 - 17:10 Welcome Daniele de Luca, Medical President 17:10 - 17:15 Welcome Akash Deep, Chair, Scientific Affairs					
	17:15 - 17:45	Emergency and critical care without walls global goals Vinay Nadkarni, USA					
	17:45 - 18:15	ARDS from Ashbaugh to where? Post-COVID 19 lessons Luciano Gattinoni, Germany					
	18:15 - 18:45	Fluids in paediatric sepsis - what is the fuss? Restricted, liberal or cautious? Kathryn Maitland, Kenya					
	18:45 - 19:00	Discussion					
	19:00 - 20:00	 Xtra Time <i>Welcome Reception</i>					

Masterclass
Educational Symposium
Long Sessions / Short Sessions
Plenary
 Xtra Time
Industry Session
How to Session

Wednesday, 21 June 2022		Hall A	Hall B	Hall C	Hall D	Hall E
	08:00 - 09:00	Educational Symposium: Updates in neonatal intensive care	Educational Symposium: Nuiances of resuscitation	Educational Symposium: Understanding heart-lung physiology in paediatric critical care	Educational Symposium: Busting the myths in paediatric oncology	Educational Symposium: Anticoagulation issues in paediatric critical care
	08:00-08:30	The future of surfactant therapy is today Daniele de Luca, France	e-CPR- where do we stand now? Vinay Nadkarni, USA	How to optimize cardiopulmonary interactions in neonates and children?	Fever in the critically ill cancer patient: not always sepsis Roelle Wosten-van Asperen, Netherlands	Current debates on ECMO anticoagulation
	08:30-09:00	Endotypes of prematurity and phenotypes of bronchopulmonary dysplasia Manuel Sanchez-Luna, Spain	Initiation of chest compressions when the patient is mechanically assisted Jimena del Castillo, Spain	Diagnosis and management of univentricular physiology Cecile Tissot, Switzerland	Acute respiratory failure in oncology and stem cell transplant patients- More invasive is better or worse? Yolanda Margarita Lopez Fernandez, Spain	Anticoagulation in liver failure - are we spoilt for choices? Akash Deep, UK
	09:00 - 09:15	 Xtra Time Short Break				
	09:15 - 10:45	Long Scientific Session: Understanding ventilatory strategies	Long Scientific Session: Controversies in septic shock	Long Scientific Session: ABCDEF bundles in PICU	Long Scientific Session: Challenges in critical care nephrology and hepatology	Thinking ahead - the post-operative morbidities that matter in the long run
	09:15-09:45	Are current ventilation strategies really lung protective in mechanically ventilated children? Christopher Newth, USA	More than needles in the haystack? - update on sepsis recognition in 2023 Luregn Schlapbach, Switzerland	How to adapt ABCDEF bundles from adults to children?	Liberation from CRRT – art or science? Stuart Goldstein, USA	Identify risk factors for mid and long-term morbidities for children with Congenital heart disease Katherine Brown, UK
	09:45-10:15	Ventilation strategies in ECMO patients; when to start and how to stop Matteo di Nardo, Italy	Fluids versus inotropes in paediatric shock, foe or foe? David Inwald, UK	Early mobilization: what are the barriers to overcome? Erwin Ista, Netherlands	Challenges in the management of acute liver failure Akash Deep, UK	Left ventricle versus right ventricle - why both ventricles are not the same Apama Hoskote, UK
	10:15-10:45	Oral presentations	Oral presentations	Oral presentations	Oral presentations	Oral presentations
	10:45 - 11:15	 Xtra Time Coffee Break, Exhibition & E-Poster Viewing				
	11:15 - 12:15	Short Scientific Session: Difficult sedation and analgesia	Short Scientific Session: Nutrition - Bench to bedside	Short Scientific Session: Title TBA	Short Scientific Session: Medical complexity	Short Scientific Session: Databases - how relevant are they?
	11:15-11:45	Does a definition exist today? Dick Tibboel, Netherlands	Critical care nutrition - From evidence to bedside Nilesh Mehta, USA	Personalized medicine in PICU in 2023 – challenges and opportunities Luregn Schlapbach, Switzerland	Parental experiences of technology-dependence among children and adolescents with long-term ventilation	Applying big data science to PICU/NICU/adult ICU Erik Koomen, Netherlands
	11:45-12:15	Oral presentations	Oral presentations	Oral presentations	Oral presentations	Oral presentations

	12:15 - 12:30	 Xtra Time <i>Short Break</i>			
 Xellence	12:30 - 13:30	Plenary III			
	12:30-13:00	Role of multi-centre collaborations for research & QI Lara Shekerdemian, USA			
	13:00-13:30	Ethical challenges of research in LMIC Kathryn Maitland, Kenya			
	13:30 - 14:45	 Xtra Time <i>Lunch Break, Exhibition, Poster Walks & E-Poster Viewing</i>			
	13:30 - 14:30	<i>Parallel Poster Walks in Exhibition</i>			
 Xpose	13:30 - 14:30	Industry Session I	Industry Session II		
 Xellence	14:45 - 15:45	Plenary IV			
	14:45-15:15	Lived experience of sepsis and ECMO- Patient experience Anthony Bennett, UK			
	15:15-15:45	The role of patients & families in the quality and safety mission: We are ONE Anne Sylvie Ramelet, Switzerland; Joseph Manning, UK			
	15:45 - 16:00	 Xtra Time <i>Short Break</i>			
 Xchange	16:00 - 17:00	Short oral presentations	Short oral presentations	Short oral presentations	Short oral presentations
	17:00 - 17:30	 Xtra Time <i>Coffee Break, Exhibition & E-Poster Viewing</i>			
 Xpand	17:30 - 17:50	Interdisciplinary Session: Title TBA	Interorganizational Session: Non-renal impact of AKI - organ cross talk	Interorganizational Session: Title TBA	Interorganizational Session: Brain cross talk with other organs
	17:30-17:50	Drug-drug interactions in PICU Saskia de Wildt, Netherlands	Extracorporeal therapies beyond CRRT in PALF Gerard Cortina, Austria	The transfusion dilemma. Adapting transfusion guidelines to the real CHD world – are we right in setting targets and transfusion thresholds?	Time is brain - can we improve neuro-outcomes Barney Scholefield, UK
	17:50 - 18:10	Management and impact of refractory ICU delirium Angela Amigoni, Italy	Nutritional challenges and dialytrauma for CRRT patients Stuart Goldstein, USA	Looking after the right heart in ARDS Katherine Brown, UK	Septic encephalopathy; what does an intensivist need to know? Mark Peters, UK
	18:10 - 18:30	Block it or drop it – Neuromuscular blockade for ARDS Nilufer Yalindag-Ozturk, Turkey	Renal replacement therapy on ECLS – Indications, technical challenges, and outcomes Zaccaria Ricci, Italy	ECMO for sepsis - where do we stand?	Pumping brain and thinking heart - interaction of two important organs Karl Schettler, Netherlands
 Xtra Care	18:30 - 20:00	Reception for ESPNIC members & GA			

Thursday, 22 June 2023		Hall A	Hall B	Hall C	Hall D	Hall E
 Xplore	08:00 - 09:00	Educational Symposium: Adjunctive therapies in neonatal intensive care	Educational Symposium: Have hugs not drugs	Educational Symposium: Current state of play in paediatric respiratory failure	Educational Symposium: Avoidable harm in PICU	Educational Symposium: Nitty gritty of paediatric cardiac arrest
	08:00 - 08:30	Nitric oxide in use in management of CDH – friend or foe?	Non pharmacological management of delirium Orsola Gawronski, Italy	Paediatric ARDS - Second version of PALICC PARDS guidelines Yolanda Margarita Lopez Fernandez, Spain	An emerging problem: medical errors Angela Amigoni, Italy	Should unanticipated cardiac arrest be a thing of the past Gerri Sefton, UK
	08:30 - 09:00	Smaller machines for smaller patients do they add safety and efficacy? Zaccaria Ricci, Italy	Challenges in scoring for paediatric delirium Lyvonne Tume, UK	Where are we with noninvasive approaches for respiratory failure (HFNC, NIV) Alberto Medina Villanueva, Spain	Evaluation of interventions to reduce interruptions during medication preparation and delivery: what is the best evidence? Saskia de Wildt, Netherlands	Post-arrest care: Updates on temperature management and neuroprognostication Barney Scholefield, UK
	09:00 - 09:15	 Xtra Time <i>Short Break</i>				
 Xchange	09:15 - 10:15	Short Scientific Session: ARDS united: Neonatal, paediatric and adult. What do we need besides ventilation strategies?	Short Scientific Session: ESPNIC-SCCM Joint session - Sepsis guidelines	Short Scientific Session: PANDEM guidelines	Short Scientific Session: EURO-ELSO/ESPNIC - Pushing the boundaries in ECMO	Short Scientific Session: Oxygen in the PICU- how much is too much?
	09:15 - 09:45	Panelists: David Tingay, Australia; Christopher Newth, USA; Yolanda Margarita Lopez Fernandez, Spain	Panelists: Pierre Tissieres, France; David Inwald, UK; Akash Deep, UK; Michael Carter, UK	Panelists: Erwin Ista, Netherlands; Saskia De Wildt; Mencia Santiago, Spain; Anne-Sylvie Ramelet, Switzerland	Is there a weight limit - How small is too small? Lars Mikael Broman, Sweden	COAST Study Kathryn Maitland, Kenya
	09:45 - 10:15				ECMO in Haematopoietic stem cell transplantation patients Matteo Di Nardo, Italy	What has OXY-PICU taught us? Mark Peters, UK
	10:15 - 10:45	 Xtra Time <i>Coffee Break, Exhibition & E-Poster Viewing</i>				
 Xchange	10:45 - 12:15	Long Scientific Session: Title TBA	Long Scientific Session: Emerging trends in sepsis	Long Scientific Session: Dogmas in respiratory failure	Long Scientific Session: Title TBA	Long Scientific Session: ESPNIC ESPID-ESCMID joint session
	10:15 - 11:15	The ever-changing quest for the 'ideal' ECMO indication. Is challenging current knowledge the only way forward? Aparna Hoskote, UK	New vasoactive agents in shock Pierre Tissieres, France	Dogma vs science in mechanical ventilation for respiratory failure Martin Kneyber, Netherlands	Who decides the best interests of the child? Parents, clinicians or the law Joe Brierley, UK	Lessons learnt from the RSV surge end of 2022? Marie Billard, Netherlands
	11:15 - 11:45	Re-thinking markers of cardiac output: singular endpoints or rather useful adjuncts to trend? Angelo Polito, Switzerland	Early and reliable diagnosis of sepsis - what do we have in our kitty? Michael Carter, France	Steroids in neonatal and paediatric respiratory failure: Where are we now? David Tingay, Australia	Defining and measuring the quality of end of life care Paulienne Raymakers-Janssen, Netherlands	At the crossroad of antimicrobial stewardship and efficient sepsis management
	11:45 - 12:15	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations
	12:15 - 12:30	 Xtra Time <i>Short Break</i>				

 Xchange	12:30 - 13:30	Short Scientific Session: Recruit and Retain - Biggest mantra of running PICU/NICU		Short Scientific Session: Healthcare professionals need help too!	Short Scientific Session: Weaning is an art....	Short Scientific Session: Title TBA	Short Scientific Session: Title TBA
	12:30 - 13:00	Strategies to address nursing workforce recruitment and retention within the PICU/ NICU Julie Menzies, UK	Moral distress and moral injury in PICU health care professionals Chiara Tosin, Italy	How do I actively dereuscitate my patient after active resuscitation? Joris Lemson, Netherlands	Cutting edge mobile ECMO - nuts and bolts Ulrich Terheggen, Switzerland	Refeeding syndrome: underdiagnosed in PICU? Sascha Verbruggen, Netherlands	
	13:00 - 13:30	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	
	13:30 - 14:45	 Xtra Time Lunch Break, Exhibition, Poster Walks & E-Poster Viewing					
	13:30 - 14:30	Parallel Poster Walks in Exhibition					
 Xpose	13:30 - 14:30	Industry Session III	Industry Session IV				
	14:30 - 14:45	 Xtra Time Short Break					
 Xellence	14:45 - 15:30	Plenary V: Quiz your top Editors- Tips for publishing your research work Quizmasters: Michael Carter, UK; Julie Menzies, UK; Barney Scholefield UK Panel: Esther Lau, UK; Dick Tibboel, Netherlands; Lyvonne Tume, UK; Giuseppe Citerio, Italy; Katherine Brown, UK;					
	15:30 - 15:45	 Xtra Time Short Break					
 Xchange	15:45 - 16:45	Short Scientific Session: Title TBA	Short Scientific Session: If we can, does not mean we should. Care of the child with medical complexity	Short Scientific Session: Safety during transport	Short Scientific Session: Title TBA	Short Scientific Session: State of the art neurocritical care	
	15:45 - 16:15	The use of electronic devices to support PEWS and escalation of care Geri Sefton, UK	DNAR orders and invasive procedures: A multidisciplinary approach to ethical management Joe Brierley, UK	Ensuring safety of staff and patients during transport - Embedding safety culture in retrieval teams Dora Wood, UK	How do we assess fluid responsiveness in 2023- A physiology based approach to choosing inotropes in neonates and children Javier Urbano, Spain	What can paediatricians learn from recent adult studies? Giuseppe Citerio, Italy	
	16:15 - 16:45	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	
	16:45 - 17:15	 Xtra Time Coffee Break, Exhibition & E-Poster Viewing					
 Xpand	17:15 - 18:30	Interdisciplinary Session: Title TBA	Interdisciplinary Session: Title TBA	Interdisciplinary Session: Nutritional recovery after critical illness	Young Investigator Session	Interdisciplinary Session: POCUS in neonatology	
	17:15 - 17:35	Collaboration is key: Co-creating a PICU with patients, parents and health professionals Erik Koomen, Netherlands	How we support good neonatal care for infants transferred from NICU to PICU Janet Mattsson, Sweden	Bedside tools and diagnostic dilemmas in assessing GI dysfunction Frederick Valla, France		Playing safe in the NICU – SAFE-R protocol on the use of multi-system POCUS in the NICU Nadya Yousef, France	
	17:35 - 17:55	Strategies to reduce PICS-p: are PICU diaries effective? Orsola Gawronski, Italy	The next generation of nurses: What will keep them happy in the work place Janet Mattsson, Sweden	How well do we know children's nutritional recovery after critical illness Lynne Latten, UK		New diagnostic approach of the RDS of Immaturity. Value of Point of Care lung ultrasound in the NICU Francesco Raimondi, Italy	

17:55 - 18:15	Dealing with death in the PICU- Supporting the family's bereavement process Chiara Tosin, Italy	The experience of having embedded clinical psychologists for staff support - challenges, benefits and rewards Kate Baptiste, UK	Nutritional and metabolic therapies targeting muscle mass and function Nilesh Mehta, USA	Does point of care echocardiography makes difference in management of hemodynamic evaluation in neonates and children? Yogen Singh, UK
18:15 - 18:30	Discussion	Discussion	Discussion	Discussion

Friday, 23 June 2023		Hall A	Hall B	Hall C	Hall D	Hall E
 Xplore	08:00 - 09:00	Educational Symposium: Title TBA	Educational Symposium: Are PICU transfusion guidelines enough?	Educational Symposium: Title TBA	Educational Symposium: Title TBA	Educational Symposium: Patient safety
	08:00 - 08:30	Metalogical challenges of data science with retrospective datasets (bias, event-non event ratio) Erik Koomen, Netherlands	Practical approach in tertiary-level units	Can we reach the top of the Kirkpatrick model with simulation Anna Zanin, Italy	Multimodal monitoring in traumatic brain injury Shruti Agrawal, UK	Simulation the key to enhancing patient safety in the PICU/NICU Chiara Tosin, Italy
	08:30 - 09:00	Stability and outcome at PCICU post surgical neonates Joppe Nijman, Netherlands	Massive transfusion in pediatric critical care Fabrizio Chiusolo, Italy	Simulation and multiculturalism Gilles Jourdain, France	Neuroprotection in the preterm infant Manuel Sanchez Luna, Spain	The impact of occupational stress of PICU/NICU staff on patient safety
	09:00 - 09:15	 Xtra Time <i>Short Break</i>				
 Xchange	09:15 - 10:45	Long Scientific Session: Title TBA	Long Scientific Session: Survivorship: Looking into the last link of the chain of survival	Long Scientific Session: Controversies in monitoring of shocked patients. Do we really need monitors for shock	Long Scientific Session: Sustainable nutrition - art or science?	Long Scientific Session: Education in ESPNIC
	09:15 - 09:45	What is the evidence base behind PICU / NICU nurse education and staffing ratios and how do they impact on patient outcomes? Julie Menzies, UK	From immediate Post ROSC care to Survivorship: the PICU journey Jimena del Castillo, Spain	Pro - This is the era of technology- we absolutely need multi-modal monitoring Joris Lemson, Netherlands	Nutrition in PICU – achieving UNSDG Goals Lynne Latten, UK	Echocardiography, Neonatologist performed echocardiography (NPE) and Cardiac POCUS – challenges and opportunities, where do we stand with certification in 2023? Yogen Singh, UK
	09:45 - 10:15	Good leadership and the impact on the culture of PICU and NICU Rui Bacelos Silva, Portugal	Home and safe? When follow-up for Survivorship becomes a standard of care	Con- We are clinicians - we need to use our clinical acumen, physical examination and blood tests to manage these patients David Inwald, UK	Sustainable nutrition – are plant based proteins a possibility? Achieving small differences to reduce impact in the climate emergency Sascha Verbruggen, Netherlands	Year of ESPNIC educational activities - 2021 Alberto Medina Villanueva, Spain
	10:15 - 10:45	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations
	10:45 - 11:15	 Xtra Time <i>Coffee Break, Exhibition & E-Poster Viewing</i>				
 Xellence	11:15 - 12:15	How to Session 01: Year in Review 2022-23	How to session 02: Review of recent guidelines	How to Session 03: Title TBA	How to Session 04: When the going gets tough, the tough get going	How to Session 05: Transport medicine
	11:15 - 11:45	ICM-PN - The new horse in the race Dick Tibboel, Netherlands	Fluids in critically ill patients - ESPNIC guidelines Frederick Valla, France	Patient safety and management - the role of rapid response team Kate Baptiste, UK	Response of healthcare professionals to Ukrainian crisis Daniele De Luca, Italy; Pauliene Raymakers Janssen, Netherlands	Initiate and manage NIV during transport Dora Wood, UK
	11:45 - 12:15	Open access versus closed access journals - Where do we stand today? Esther Lau, UK	Ventilation liberation guidelines Martin Kneyber, Netherlands	How do we work with more sustainability within PICU/NICU? Janet Mattsson, Sweden	Second opinions in critical care - a challenging medicolegal case Karl Schettler, Netherlands	How do I set up an a good quality paediatric and neonatal critical care retrieval service Ulrich Terheggen, Switzerland
	12:15 - 12:30	 Xtra Time <i>Short Break</i>				
 Xellence		President's Session & Denis Devictor Award Lecture				
	12:30 - 13:00	Defining high performance Paediatric critical Care of the 21st Century				
	13:00 - 13:20	Closing Session & Awards
